

# Welcome to Payanywhere.

**Smart Terminal Mini**

(PAX A77)

# Get started.

For help with your first-time setup, call 888.579.4787

## Power up

1. Connect the charging cord to the power adapter and plug the power adapter firmly into a power outlet.
2. Connect the other end of the charging cord to the charging port located on the top of the terminal.
3. Press and hold the power button located on the right side of the terminal.

💡 We recommend keeping your terminal charged above 30% as a low battery can affect the performance of your card reader.

## Configure settings

1. Tap the Settings app icon  from the terminal's home screen.
2. Tap System → Date & Time to ensure your timezone is correct (ET by default.) An incorrect time zone will impact your funding.
3. Tap Network & Internet → WiFi to toggle WiFi to on.
4. Select your desired network, enter the password (if necessary), and tap Connect. If you are unable to connect to a WiFi network, your terminal is equipped with 4G cellular connectivity.
5. You should see a Connected status on your selected network.
6. Return to the terminal's home screen by tapping the Home icon.

## Download the Payanywhere app

1. From the home screen, tap the PA Installer app icon and tap the Install Payanywhere button. 
2. Return to the home screen and tap the Payanywhere app icon. 
3. Log in using the QR code provided in your Welcome email. Or, log in with the email address and password you used when creating your account.

# Complete a sale.

## Choose a theme

Payanywhere's default Terminal theme works just like a traditional credit card terminal. For advanced features like inventory and open tabs, switch to the Retail theme. You can change your theme by navigating to Settings → Theme.

## Terminal theme

1. Enter a dollar amount on the New Sale screen.
2. Insert an EMV chip card into the terminal. Or, select the desired payment method at the bottom of the screen.
3. Your customer will sign and tip, if necessary.
4. Email or SMS text a receipt to your customer.

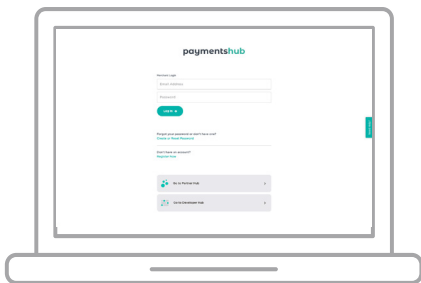

## Retail theme

1. Add one or more items to your cart. Tap Charge to proceed to checkout, or tap Create Ticket to create an open ticket.
2. Insert an EMV chip card into the terminal. Or, select the desired payment method from the Checkout screen.
3. Your customer will sign and tip, if necessary.
4. Email or SMS text a receipt to your customer.

# Access Payments Hub.

## Log in

Payments Hub is the online hub to manage your business. Navigate to [paymentshub.com](https://paymentshub.com) and log in with the email address and password you used when creating your account.

## View activity

See real-time sales data, transactions, deposits, statements, and generate reports.

## Create employees

Assign administrators, managers, cashiers, or reporters with customizable levels of access.

## Manage account

Update your personal and business information, manage disputes, and integrate with third-party services.

## Accept payments

Process credit card payments in a web-based virtual terminal. Send recurring invoices that customers pay online.

## Manage inventory

Build or import a product library and track stock. Create items with price variants, categories, modifiers, and discounts.

## Order supplies

Purchase receipt paper, hardware, and accessories.

## Learn more.

#### **FCC Regulations**

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference and (2) this device must accept any interference received, including interference that may cause undesired operation. This equipment complies with Part 68 of the FCC rules and the requirements adopted by the ACTA. On the body of this equipment is a label that contains, among other information, a product identifier. If requested, this number must be provided to the telephone company.

#### **RF Exposure Information**

This device meets the government's requirement for exposure to radio waves. This device is designed and manufactured not to exceed the emission limits for exposure to radio frequency (RF) energy set by the Federal Communications Commission of the U.S. Government.
